### **Waste: Guidance for people with confirmed or possible coronavirus (COVID-19) infection:**

Personal waste (such as used tissues) and disposable cleaning cloths can be stored securely within disposable rubbish bags. These bags should be placed into another bag, tied securely and kept separate from other waste. This should be put aside for at least 72 hours before being put in your usual black household rubbish bin.

We recommend that people without wheelie bins who use authorised blue bags for their rubbish should place personal waste in a securely tied disposable rubbish bag (like a black bin bag) before placing in your blue sack. This also applies to those who use gull-proof sacks.

Recycling, glass, and food waste can be placed in your usual bins.
