

We have had another successful week vaccinating our local residents against Covid 19 . Last week we vaccinated over 1000 local residents over 80 years old. This week we have administered 1800 vaccines, amongst the over 80's , residents and staff of local care and nursing home and also Frontline Health Care workers. A massive thank you to all the staff and volunteers who have helped to make this happen.

We are awaiting notification of our vaccine delivery for next week. We shall next be targeting the elderly housebound and the cohort aged 75-79. We are on schedule to vaccinate our most vulnerable residents by the middle of February. However if you are over 80 and registered with either The Apples Medical Centre, Yetminster Health Centre or The Grove Medical Centre and are not housebound and for some reason HAVEN'T already been invited for a Covid Vaccination, please get in touch with your surgery to arrange one.

Please remember that vaccination is by appointment only and we will get in touch with you to arrange a vaccination date and time. It is important that we have your up to date details so that we can get in touch with you. We will make increasing use of mobile phones and texting to make contact, so please ensure we have your latest mobile phone number. Visit your surgery website to find out how you can easily update your contact details. Do not be concerned if you do not have a mobile phone as we will still reach you by landline.

Covid infections locally still remain much higher than in the first wave and there are still a significant number of new cases locally each week, so please follow the rules and stay at home, protect the NHS and save lives. Please ensure this message reaches those who may not have seen it.

Thank you.

Dr Rob Childs

Covid vaccination Lead for Sherborne Area Network
